**VERTEX TOP
ELEPHANT**
GPS MONITORING COLLAR

VERTEX PLUS 6+ IRIDIUM
ELEPHANT GPS TRACKING COLLAR

- New battery with 30% greater capacity
- Record up to 365,500 GPS positions
- Remote data transmission via Iridium satellite network
- Single housing design on top of the neck for improved satellite reception balanced by counterweight
- Mortality & temperature sensors
- VHF beacon

**DEPENDABLE ELEPHANT GPS MONITORING
FROM VECTRONIC AEROSPACE**

Drawing from more than 20 years of experience in researching, developing, and manufacturing wildlife GPS monitoring equipment, Vectronic Aerospace has upgraded the battery life and satellite reception of its industry-leading elephant GPS monitoring collar. Balanced by a counterweight, the collar is built with a waterproof housing that includes both the battery and electronics, making it durable against damage and environmental influences.

AVAILABLE OPTIONS

- Advanced 3-axis acceleration sensor
- Virtual Fence
- UHF External Sensors
 - Proximity
 - Separation

SPECIFICATIONS

- Max belt adjustment range: 4m
- Weight: 13.4 kilograms
- Sustainability: User-replaceable batteries and refurbishable collar
- Batteries: 6 cells
