TRAP TRANSMITTER

TT5

TRAP TRANSMITTER

- Adaptable to any trap style
- Trap trigger notifications
- Daily status updates
- Unlimited notification list
- Battery life: 10 years
- Reliable coverage in remote areas
- Utilizes Globalstar satellite network

REAL-TIME REMOTE TRAP MONITORING FROM VECTRONIC AEROSPACE

Vectronic Aerospace has modernized a simple solution for trap monitoring. When your remote trap closes, the TT5 Trap Transmitter emits a signal to the Globalstar satellite system. Moments later, you will receive an email and SMS notification that the trap has closed. This is a smart, efficient device that delivers improved performance with 10-year battery life and the rugged dependability you have come to expect from our industry-leading team of wildlife telemetry experts.

AVAILABLE OPTIONS

- Alert every 30 minutes for first 10 hours after the remote trap is triggered.
- Status message twice each day when trap is active and not triggered.
- Adaptable to any style of trap
