### **VERTEX VISION** GPS MONITORING COLLAR

- Camera built into Vertex Plus collar
- Collect high-res, wide-angle photos and/or videos with audio
- On-board storage up to 238 GB
- Recording triggered by:
  - Camera schedule
  - GPS schedule
  - Proximity
  - Birth event in combination with VIT

### **HIGH-RESOLUTION POV VIDEO & PHOTO FROM VECTRONIC AEROSPACE**

Vectronic Aerospace delivers a new perspective with its camera collars. This technology combines industry-leading wildlife GPS monitoring equipment with the ability to see what your animals see. Built into your collar's battery housing is a high-resolution camera and microphone, capturing the animal's point-of-view as only a collar can. You'll be amazed by how this rugged, custom-designed hardware can collect hours of 4K video footage with audio and thousands of photos to aid you in achieving the goals of your study.

#### **AVAILABLE OPTIONS**

- Capture images from front or side view
- Up to 238 GB of on-board storage
- Configured for Vertex Plus collars

#### **SPECIFICATIONS**

- 10 different video modes available
- Record 16:9 aspect ratio at 30 or 60 fps
- Audio/video recording 10 sec to 6 min
